PharmLabs San Diego Certificate of Analysis

3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-0000098-LIC ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #85368

Sample Kream Faded

Sample ID SD230227-013 (67108)		Matrix Concentrate (Inhalable Cannabis Good)
Tested for Ace Leaf - Kream Faded		
Sampled -	Received Feb 27, 2023	Reported Feb 28, 2023
Analyses executed CANX		

Laboratory note: The estimated concentration of the unknown peak in the sample is 2.94% [Currently PharmLobs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)d8-THC or d9-THC. At this time there are no reference standards available for (+)d8-THC, (+)d8-THC is a different compound from the main (-)d8-THC cannobinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)d8-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC with the majority, if not ail, of the concentration being (+)d8-THC. Total (+/-) D8 Concentration is estimated to be: 48.26%

CANX - Cannabinoids Analysis
